

HABERBERGER INC.

Experience. Integrity. Quality. Since 1948.

Mission Statement of Haberberger Mechanical, Inc.

A company dedicated to meeting the needs of the customer, exceeding his expectations and developing a successful, long-lasting relationship through:

Quality, delivering our service defect-free and on time.

Unending improvement of our services.

Assurance of a constant effort to provide a safe work place.

Leadership, the ability to achieve and accomplish through serving.

Integrity. It is never compromised.

Teamwork. Together we will achieve.

You, as a vital member of the team, are needed to commit to this mission and be responsible for its promotion and implementation.

This philosophy creates the company direction and purpose, namely:

To Cause Our Customers to Be Successful

Our Origins

Since its founding in 1948, Haberberger Mechanical has embraced this mission statement. From our earliest days as a small, family company, we have strived to exceed our customers' expectations and ensure that they always get the highest levels of integrity, quality and experience.

HABERBERGER TODAY

Today, Haberberger is a third-generation owned and operated company with 100+ employees. We offer single-source responsibility for everything from project conception through design, building, fabrication, installation and service. Our personnel stay informed of the latest technological developments and ongoing programs to ensure that our customers receive the highest quality work using the safest, most proficient installation practices.

Haberberger remains a leader in the industry because:

- We bring hands-on project management experience and personal interest to each project, regardless of size.
- We have earned the respect of customers and vendors for our excellent safety record, strict quality control, fast response time and attentiveness to every job.
- Our personalized, team approach helps us effectively serve a variety of customers, from a single service call to major projects for Fortune 500 companies.
- Our ability to offer the latest in materials and techniques, along with a strong partnership with our local unions, helps assure continued success for our clients.

WHAT CAN WE DO FOR YOU?

- Mechanical Contracting Design & Installation
- Fabrication
- Service
- Rigging

"We can always count on Haberberger to give us high quality work that meets our schedule goals at a competitive cost. They've performed well on a wide range of projects for Ameren and are responsive to our needs."

*Fred Pope, Director Project Management
Generation Technical Services
Ameren Generation*

FABRICATION

Haberberger Mechanical's fabrication shop is a 28,000-square-foot, ASME certified facility. By having full-service capabilities with segregated carbon-steel and stainless-steel welding facilities, Haberberger is more than just a welding shop, and is able to meet any and all fabrication needs for our clients.

The capabilities of the fabrication shop are extensive thanks to the skilled craftsmen of Local 562 with the latest technology and equipment at their disposal. We have on staff a full-time American Welding Society (AWS) Certified Weld Inspector to ensure all jobs meet the highest standards.

The fabrication shop is equipped to perform a variety of welding processes, including:

- Submerged arc welding
- MIG welding
- TIG welding
- Orbital pipe and tube welding
- Sanitary Polypropylene and polyethylene

Working in partnership with our customers, we identify the best processes to use for each job and provide the highest levels of quality craftsmanship. Our staff can assist you with selecting the right procedures for your job and providing job-site assessment and measurement. Our welders receive extensive training and work with the full spectrum of materials, including plastics, fiberglass, carbon steel, stainless steel, copper, inconel, hastalloy, aluminum and other exotic metals.

Because we recognize the importance of time, each project is planned for minimal interruption at the customer's work site. Our careful planning and team approach means that we complete each job in the most efficient way possible.

"I've worked with Haberberger over the last five years. Seven years before that I worked for them as a sub-contractor and recently they have been working for me. They are fabulous people; from the brothers themselves to their troops, they're some of the finest people you will ever meet. You will never find more terrific people anywhere else. They are the most honest and dependable mechanical contractor I have ever worked with."

*Brent Noel
Pfizer*

"We have been working with Haberberger for many years, (over 25 years to be exact). Haberberger has always done a great job for us."

*Jim Reiter
Group Manager of Contract
Design and Construction
Boeing*

MECHANICAL CONTRACTING DESIGN & INSTALLATION

From conception to completion, Haberberger can take your needs, develop drawings and turn them into reality.

Our mechanical contracting work includes:

- Industrial and heavy commercial piping
- Wastewater treatment plants
- Water treatment plants
- Biopharmaceutical
- Food and beverage
- Refrigeration
- High-pressure piping systems
- Fuel-tank installation and piping
- Heating ventilation and air conditioning systems
- Ultra-high purity piping systems for the semi-conductor industry

Our investment in the latest technology for all aspects of the job means our customers receive the highest levels of quality at the fairest price. We work in partnership with each customer on estimating and project management to ensure their specific requirements are met from conception through completion.

“Haberberger has worked on several of my projects over the last 14 years. Their attention to detail has always been impressive.”

*Mark Hunter
Tyco Healthcare / Mallinckrodt
Corporate Engineering Project Manager*

EXCELLENCE IN SAFETY

We are committed to providing a safe and healthy work environment for all of our employees, subcontractors and customers. Haberberger Mechanical follows strict operating practices and our employees take part in regular safety training exercises to further enhance their safety skills. We believe that all accidents are preventable and, therefore, we will make every effort to prevent accidents and comply with all established safety and health laws and regulations.

We are pleased to have been recognized for excellence in safety by our customers and the Mechanical Contractors Association of America.

Haberberger received the Anheuser-Busch Alabaster Eagle Award for Safety in 1999, 2005 and 2006.

SERVICE

Haberberger's service department provides customers with quality and expertise they can depend on.....all day, every day. We provide service for new and existing HVAC systems, including building automation, maintenance and controls.

Specific services include maintenance, service, repair and replacement of:

- Rooftop and refrigeration units
- Process controls
- Compressors
- Low- and high-pressure centrifugal chillers
- High-pressure screw machines
- Absorption chillers
- Boilers
- National Board Certified repairs

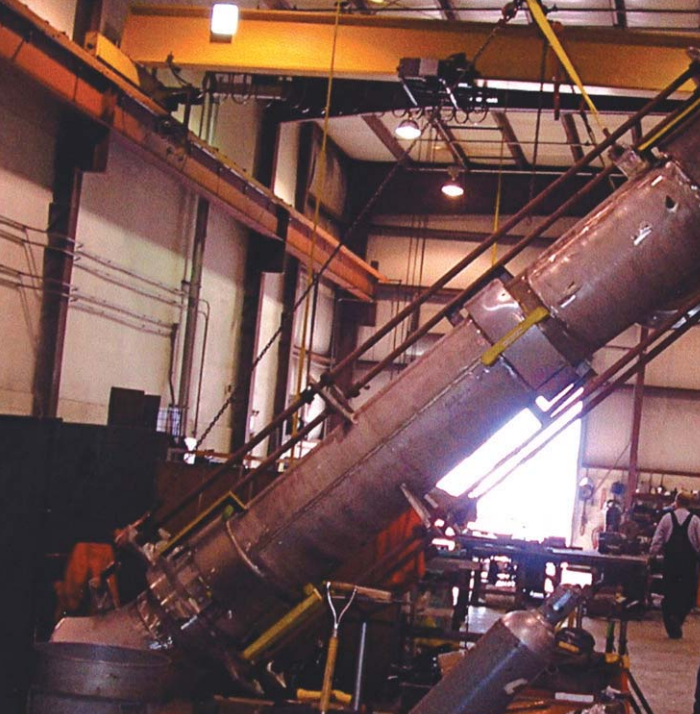

Our experience working with the latest equipment makes our customers' systems as reliable and energy-efficient as possible.

We offer a variety of maintenance plans suitable for companies and budgets of all sizes. Our service department is on call 24 hours a day, 7 days a week. With a modem link to our offices, we have the capability to monitor your systems, check into any problems and make immediate recommendations, or even reset the controls, all from our computer systems. Our customers enjoy the peace of mind that their equipment is being taken care of properly and according to the manufacturer's specifications.

“When you call Haberberger, they are very prompt. They explain the job well, give us various options to fix the problem and get the repair done quickly. They know what they’re doing.”

*Art McKeen
Manager Facilities/Maintenance
Baldor Electric*

THE HABERBERGER DIFFERENCE

There are numerous reasons why we've been working with some of our customers for decades, and why first-time customers keep inviting us back for new projects. At Haberberger Mechanical, we're different from other mechanical contracting firms in the industry. Here's how....

- We offer each customer personalized attention, becoming their partner on each job
- Company owners are involved at the field level, helping to strengthen relationships with our own people and our customers
- We're committed to getting each job done right....the first time
- Our affordable rates and extensive expertise ensure exceptional value
- We partner with the United Association and MCAA in safety, education and training programs; and we have our own in-house safety director who sees that safety remains priority #1.
- We promise a rapid response when your system needs servicing or repair

For more than 50 years, our business philosophy has helped to make Haberberger, Inc. a leading mechanical contractor in the St. Louis region. You can count on us for your mechanical contracting needs.

Neil Haberberger
