Haberberger Wins Three Awards from MCA of Eastern Missouri

Company honored for its piping work

REGIONAL REPORTS

September 19, 2016

ST. LOUIS — Mechanical contracting firm, Haberberger Inc., has received three Outstanding Mechanical Installation Awards from the Mechanical Contractors Association (MCA) of Eastern Missouri for its work on projects for Metropolitan St. Louis Sewer District (MSD) and Mallinckrodt Pharmaceuticals.

Haberberger was honored for its piping work for MSD in two categories. The company won in the Process Piping-Public Utility category for projects of up to \$600,000 for its work on a disinfection project at MSD's Coldwater Creek Wastewater Treatment Plant in Florissant, Missouri. Haberberger was also recognized in the Process Piping Large Projects-Public Utilities category for projects exceeding \$2 million for its Redundant Force Main project at the MSD Wastewater Treatment Plant in Lemay, Missouri. Both projects were led by Jeff Roberts, project manager, and Phil Jones, pipefitter general foreman.

Haberberger was also recognized for outstanding process piping work in the category of projects between \$600,000 and \$2 million for its work on a demineralizer project at Mallinckrodt Pharmaceuticals in Hazelwood, Missouri. The project was led by Pat Reiller, project manager, and Dodd Slawson, pipefitter general foreman.

The MCA of Eastern Missouri recognizes companies and projects with its Outstanding Mechanical Installation Awards bi-annually. The awards are judged based on criteria that includes quality of the installation, the working relationship between owner and contractor, and the project's appearance.
